VISION

WEDDINGS &
LUXURY CATERING

whether your wedding is days or years in the planning we'd be proud to be your (other) partner on the big day.

While we delight in the fact that no two weddings are the same some things are always consistent.

For instance our dedication to delivering the perfect culinary wedding experience.

Irrespective of whether its small, intimate and delicate or expansive, robust and high profile we never lower our standards.

We will have discussed to your complete satisfaction all of the options and combinations available, from traditional to avant garde or themed to minimal, offering as much advice as you require to create your first meal as a couple.

You can bring a menu to us or we're equally happy to propose a range of feasts to spur the imagination.

Our years of experience mean we're delighted to offer flavoursome options for all dietary and religious requirements. Talk to Jeffrey at Vision and let us put the icing on your cakes!
